

Extraordinary accommodation instructions for staying at the Študentski dom Ljubljana to prevent the spread of COVID-19 infection

WE ENTER STUDENT DORMITORIES HEALTHY.

I. Statement

- The condition for residence is a completed “Statement to contain the spread of COVID-19”.

II. Recommended testing with rapid antigen tests

- Following the instructions of the Ministry of Education, Science and Sport, before returning to the dormitory it is recommended to get tested with rapid antigen tests at one of the mass testing sites, where free testing is available. A list of locations is available [here](#). Residents are also recommended to get tested on a weekly basis at the above locations during their stay.

III. General hygiene recommendations

- To stay in the institution, it is necessary to follow the General instructions for the prevention of infection with the pathogen COVID-19 (i.e. physical distance, use of a mask, hand washing and disinfection, cough hygiene and intensive ventilation); follow the [link](#) for more.

IV. Entrance to student dormitories

- Only healthy people can enter homes (meaning they have not had any of the following symptoms in the last 14 days: malaise, colds, cough, fever, shortness of breath, headache, muscle aches, loss of smell or taste and sore throat).
- Hand disinfection is mandatory before entering the home and floor.
- The use of a mask is mandatory to enter the dormitory. The use of a mask is mandatory in all common spaces until entering one’s own living quarters (room/apartment).
- Every resident is obliged to provide the mask themselves.

V. Accommodation in living spaces (rooms/apartments)

- Moving residents between living quarters, floors and homes is not recommended.
- Visits by non-residents are not recommended.
- Overnight visits are prohibited.
- Parties are forbidden.
- Residents must ventilate their living quarters several times a day.

VI. Use of common areas

- When using staircases, corridors, kitchens, toilets and other common spaces, the use of a mask and physical distance of at least 2 m is mandatory.
- At the same time, there can only be so many people in common spaces that a minimum of 2 m of physical distance can be maintained between them.
- Parties and socializing are prohibited.

- The use of social rooms is permitted for educational purposes, on condition that masks are used and a physical distance of at least 2 m is maintained.
- When using classrooms, a mask and a physical distance of at least 2 m should be ensured.
- Only one person at a time can use the music room.
- The lift can only be used by one person at a time using a protective mask.
- Residents are not allowed to leave their dishes in shared kitchens (it is necessary to wash dishes regularly and take them to the room).
- Bed linen is changed according to the schedule; when changing bed linen it is mandatory to use a mask and ensure a minimum physical distance of 2 m between people.
- Common spaces should be ventilated several times a day.

VII. Measures in case of signs of disease

- If you notice signs of disease (fever and other symptoms associated with COVID-19), you should stay in the room and avoid contact with other people.
- Consult the medical service by phone (the selected physician of the patient during regular working hours, the on-duty medical service of the University Medical Center Ljubljana (01) 522 4540 or the emergency call 112), where you will receive further instructions.
- If you have been referred for testing by your chosen or on-duty physician, you must also inform the management of ŠDL by phone (01) 242 1000.
- Due to the high risk of spreading SARS-CoV-2 virus infection among residents and employees of ŠDL, we recommend that you wait for the test results at home at your address of permanent residence.

VIII. Measures in case of contact with infection

- If you have been exposed to a new coronavirus infection, you should take into consideration [NIJZ instructions for persons, who have been exposed to the new coronavirus infection](#).
- Consult the medical service by phone (the selected physician of the patient during regular working hours, the on-duty medical service of the University Medical Center Ljubljana (01) 522 4540 or the emergency call 112), where you will receive further instructions.
- If you have been referred for testing by your chosen or on-duty physician, you must also inform the management of ŠDL by phone (01) 242 1000.
- In the case of ordering quarantine, the resident is obliged to carry out quarantine at home at the address of his permanent residence, or in accordance with the protocol of the doctor. Due to the high risk of spreading SARS-CoV-2 virus infection among residents and employees, ŠDL premises are not suitable for quarantine.
- Residents without permanent residency in the Republic of Slovenia (foreign students) are obliged to be in quarantine accordance with the protocol of the doctor.

IX. Measures in case of confirmation of the disease

- In the event of a confirmed infection with the SARS-CoV-2 virus, you must immediately inform the ŠDL administration on the telephone number (01) 242 1000.
- In case of confirmed SARS-CoV-2 virus infection, you should immediately inform your contacts in accordance with the NIJZ instructions in the last two days before the onset of symptoms, and notify them that they have been in contact with a SARS-CoV-2 positive person and take into consideration [NIJZ instructions for persons exposed to the new coronavirus infection](#).
- In the case of a confirmed infection, the resident is obliged to be in isolation at home, at the address of his permanent residence, or in accordance with the protocol of the doctor. Due to the high risk of spreading SARS-CoV-2 virus infection among residents and employees, ŠDL premises are not suitable for isolation.

- In the case of carrying out isolation outside the capacity of the Ministry of Health, it is necessary to take into account [Instructions for a person with confirmed SARS-CoV-2 infection in isolation in home environment](#).
- Residents without permanent residency in the Republic of Slovenia (foreign students) are obliged to be in isolation accordance with the protocol of the doctor.

X. Monitoring implementation and intervention in case of infringements

Employees of the institution and other authorized persons, including the security service, are in charge of supervising the implementation of these extraordinary instructions.

We will initiate disciplinary proceedings against violators of Extraordinary instructions and deal with them in accordance with the Dormitory rules. In cases where the resident will directly endanger the life or health of people (irresponsible behaviour that increases the possibility of transmission of SARS-CoV-2 virus), the institution will apply the provisions of Article 77 of the Dormitory rules, which means that the resident will be immediately suspended from the Institute (suspension).

XI. Validity of extraordinary instructions

Extraordinary instructions are valid from 26 April 2021 until revocation. On the day of the entry into force of these extraordinary instructions, the extraordinary instructions of 20 February 2020 are terminated.

Management of ŠDL
