

EXTRAORDINARY INSTRUCTIONS FOR STAY TO PREVENT THE SPREAD OF INFECTION

I. Statement

- The condition for stay is to fulfill the “Statement of a resident of ŠDL to stop the spread of COVID-19”.

II. Quarantine

- Being in quarantine in ŠDL is prohibited.

III. Entering dormitories

- Only healthy people can enter dormitories, which means that they have not had any of the following symptoms in the last 14 days: fever, cough, headache, malaise, sore throat, cold, shortness of breath, diarrhea, or have not been in contact with a person showing the above-mentioned signs in the last 14 days.
- Hand disinfection is mandatory before entering the dormitory and floor.
- To enter the dormitory, the use of a protective mask is mandatory (the use of the mask is mandatory until entering the room).
- The use of a protective mask is also mandatory in common spaces.
- Each resident is obliged to provide a protective mask himself.

IV. Accommodation in rooms and migration between dormitories

- Visits to other dormitories are prohibited.
- Transitions between floors and rooms are not recommended.
- Visits by non-residents are prohibited.
- Overnight stays with residents and overnight stays are prohibited.
- Residents must ventilate their living spaces several times a day.

V. Use of common areas, kitchens and toilets

- When using staircases, corridors, kitchens, toilets and other common spaces, a social distance of at least 2 m and the use of a protective mask are mandatory.
- At the same time, there can only be so many people in common spaces that a minimum of 2 m of social distance can be provided between them.
- When using classrooms, social distance should be ensured and protective masks should be used.
- Only one person at a time can use the music room.
- The lift can only be used by one person at a time using a protective mask.
- Common spaces should be ventilated several times a day.
- The use of social rooms is prohibited, as is socializing in other common spaces.
- Residents are not allowed to leave their dishes in shared kitchens (it is necessary to wash dishes regularly and take it to the room).
- Bed linen is changed according to the schedule, when changing bed linen it is recommended that residents use a protective mask and have a distance of at least 2 m.

VI. Measures in case of signs of disease

- If you notice signs of disease (fever and other signs of an acute respiratory infection), stay in the room and avoid contact with other people.
- Consult the medical service by phone (the selected physician of the patient during regular working hours, the on-duty medical service of the University Medical Center Ljubljana (01) 522 4540 or the emergency call 112), where you will receive instructions on further measures.
- If you have been referred for testing by your chosen or on-duty physician, you must also inform the management of Študentski Dom by phone (01) 242 1000.
- In the event of a positive result, the NIJZ begins to conduct an epidemiological investigation in which the source of the infection is sought and the contacts that have been in contact with the infected resident are identified. The management of ŠDL, the health inspectorate and others are also taking part in the epidemiological investigation.

VII. Implementation

Employees of the institution and other authorized persons are in charge of supervising the implementation of these extraordinary instructions. Extraordinary instructions are valid from 12 September 2020 until revocation. On the day of the entry into force of these extraordinary instructions, the extraordinary instructions of 22 June 2020 are terminated.

Management of ŠDL
