II. AWARDING OF SUBSIDY

Subsidy for accommodation in a student dormitory is awarded for the duration of one first-cycle, one second-cycle and one third-cycle study programme. If the student has the status of a student during the study programme referred to in the preceding sentence, or after its expiration, in accordance with the second indent of paragraph one of Article 66, i.e. Article 70 of the Higher Education Act (Official Gazette of the Republic of Slovenia, No. 32/12 – official consolidated text, 40/12 – ZUJF, 57/12 – ZPCP-2D, 109/12, 85/14, 75/16, 61/17 – ZUPŠ, 65/17, 175/20 – ZIUOPDVE, 57/21 – decision of the Constitutional Court and 54/22 – ZUPŠ-1) or on the basis of another law, subsidy is also awarded to them for that time.

Subsidy for accommodation in a student dormitory is awarded for the duration of one higher education study programme. If the student has the status of a student in accordance with Article 39, i.e. Article 46 of the Higher Vocational Education Act (Official Gazette of the Republic of Slovenia, No. 86/04, 100/13 and 54/22 – ZUPŠ-1) during the higher education study programme referred to in the preceding sentence or after its expiration, subsidy is also awarded to them for that time.

If an individual student is enrolled in multiple short-cycle higher education or higher education study programmes at the same time, only the study programme in which they were enrolled when the subsidy began to be received is taken into account regarding the duration of the study programme. If the student changes a short-cycle higher education or higher education study programme, the duration of the study programme in which the student is enrolled in the individual study year for which they apply for subsidised accommodation is taken into account regarding the duration of the study programme, with the duration of subsidised accommodation before the change of the study programme being included in the time of subsidised accommodation on the basis of the duration of the study programme referred to in the first sentence of the first paragraph, i.e. the first sentence of the second paragraph of this point

Subsidy for accommodation is reduced proportionately relative to the year the student attends when the subsidy is first awarded.

Subsidy for accommodation is awarded for accommodation at the place where the studies are taking place (seat or a separate unit of the higher education institution), if vacancies for admission or extension of accommodation are planned there in accordance with point V of the call for applications.

In case the number of submitted eligible applications exceeds the number of beds available under this call for applications, the applications will be ranked in order of priority according to the date and time of the application. In the case of applications received simultaneously, priority will be given to students whose temporary residence is further away from the place of study (the higher education institution's headquarters or the short-cycle higher education institution's the headquarters where the student is enrolled). The shortest distance in kilometres between the student's temporary residence and the headquarters of the higher education institution or the headquarters of the short-cycle higher education institution will be taken into account. Google Maps is used to calculate the distance.

The students referred to in the previous paragraph will be invited to move in until the available number of beds is occupied, while the others will be offered the possibility of private accommodation to options as specified in point 10 of the Open call for admission and extension of accommodation of short-cycle higher education and higher education students in student halls of residence and in private accommodation for the 2023/2024 academic year.
